

This Form 99 is being filed in response to the FEC letter dated October 25, 2006 asking for clarification of items reported on the Louisiana Reform PAC (C00409631) October Quarterly Report (7/1/06 - 9/30/06).

Regarding the limited amount of administrative expenses, the Louisiana Reform PAC is a very small organization that relies heavily on volunteers. All of the administrative expenditures incurred during the period covered by the October reporting period were included in the report. The PAC does not have a separated office and therefore does not incur any rent or utilities. There are currently no employees of the PAC. Any services provided to the PAC that are not performed by volunteers, are provided by independent contractors.

Regarding the provision of goods and services, there were no in-kind contributions of goods or services to the PAC during the October reporting period.

Respectfully submitted on November 27, 2006.
